Who is Systema Software and where are they headquartered?

Systema Software was founded in May 2006 by Jose Tribuzio and a group of executives from the Insurance, Software and Consulting industries.

Systema Software provides flexible, comprehensive solutions and services to the insurance industry. SIMS Claims is an innovative, award-winning claims administration system, which is highly praised by clients and well recognized by industry experts as a leading claims solution. With advanced technology and focused customer service, Systema Software has experienced phenomenal growth and success, earning high rankings on the national Inc. 5000 and local Fast 100 lists of fastest-growing private companies.

Systema is headquartered in Larkspur, CA with an office in San Ramon, CA.

What are the benefits of the acquisition?

The acquisition brings together complementary claims solutions that enable Insurity to offer a differentiated value proposition based on customer need and budget while strengthening our market position and our ability to address additional segments within the claims market including self-insureds and TPAs. This acquisition, and Systema's rich heritage of flexibility, agility and responsiveness to customer needs, will help Insurity in its goal to further empower the claims marketplace.

- **With the addition of SIMS Claims , Insurity Companies becomes one of the largest global P&C insurance software & services vendors**
