What our customers are saying:

"[Insurity Loss Control] has saved us over $100,000 a year for the last 9 years by utilizing the time management component."

BILL L.
LOSS CONTROL MANAGER
TIER 1 CARRIER

"[Insurity] allowed us to reduce our loss control operational expenses by 80% by immediately automating manual tasks throughout our entire workflow, all while improving time service, report accuracy, underwriter visibility, and report quality. All in all, the [Insurity] Loss Control solution paid for itself within year 1 of our 5-year contract."

ROBERT M.
ASSISTANT VICE PRESIDENT
TIER 4 CARRIER

Top 4 reasons customers choose Insurity Loss Control...

Reduce losses
- Validate underwriting decisions and mitigate risk with loss control reports
- Minimize claims by automatically putting select accounts on recurring service

Streamline survey processes
- Increase efficiency by automating tasks with a configurable rules engine
- Create, assign, collect, and distribute survey data throughout the entire workflow automatically

Increase recommendation compliance
- Assign recommendations from a library based on survey answers from the field resource instantaneously
- Improve compliance and allow insureds to provide recommendation responses via an online portal

Integrate seamlessly
- Pass data effortlessly to and from any policy, underwriting, and claims systems
- Gather data quickly and update loss control applications automatically with self-survey tools
