"Sure Claims is a strong fit for cloud-first, midtier, multiline P&C insurers as well as MGAs."

Ellen Carney, Principal Analyst

The Forrester Wave™: P&C Claims Management Systems

FORRESTER

Top 5 reasons carriers and MGAs choose Insurity's Sure Claims

Reduce costs

- Eliminate claims leakage with FNOL data capture, vendor management, and automated adjuster assignment
- Lower costs with real-time financial positioning and end-to-end claim processing with web services

Resolve claims faster

- Adapt your claims process during catastrophic events in real time with configurable, low-code workflows
- Facilitate rapid adjudication of claims with automated alerts, diaries, and settlement letters

Enable digital business

- Optimize claims processing and increase compliance by incorporating digital communication channels into your workflows
- Get up and running quickly by connecting your claims platform to any data source with ready-to-use APIs

Deliver better experiences

- Provide frictionless customer service with direct-to consumer distribution, claims payments, coverage verification, and more
- Issue payments in just 30 seconds with an out-of-the-box integration to Insurity Claims Payments

Boost analytics power

- Predict differences in reserve amounts with predictive models from Insurity Predict
- Remove silos between all systems with embedded analytics from Insurity Business Intelligence
