

SpatialKey

Empower data driven decision-making with the industry's most proven geospatial analytics software

50% Faster risk assessment

25% Faster quoting

5% Lower claims cost

What our customers have to say:

"Data analytics is a key differentiator in how we operate, compete, select risks, and proactively manage our portfolio. With SpatialKey, we have empowered our underwriters and analytic teams with actionable information to improve risk selection and portfolio performance."

JEN KLOBNAK
CHIEF OPERATING OFFICER

Top 4 reasons customers choose Insurity SpatialKey...

1. Make better underwriting decisions

- Let data drive your decisions with access to a network of 70+ data partners
- Empower your teams with fast, insurance-specific analytics

2. Better understand your portfolio

- See how your underwriting strategy is performing with portfolio analytics that give you an aggregate view of your risk
- Identify where you have successes and areas that need improvement to inform how your teams move forward together

3. Retain more premium

- Reduce claims costs with automated event alerts & analytics
- Increase policyholder retention by proactively reaching out to insureds who were impacted by a CAT event

4. Start driving ROI immediately

- Get up and running in as little as 1 hour with our turnkey & intuitive software
- Increase DWP by identifying correlations among exposures, hazards, and modules
